

In order to achieve housing development over the next 10-20 years in the Parish that is sustainable, how important is the use of the following?

	3		2		1		Total	Weighted Average
	Very Important		Important		Not Important			
Conversion of redundant buildings for housing	70.31%	90	26.56%	34	3.13%	4	128	2.67
In-filling using sites in existing built up areas	50.88%	58	37.72%	43	11.40%	13	114	2.39
Use of green field/brown field land within and adjacent to the Parish	30.21%	29	31.25%	30	38.54%	37	96	1.92
